Re: Sewer Construction/Connection Moratorium:

Dear Board Members,

The Rockland Board of Sewer Commissioners at a regular scheduled meeting held on August 29, 2006 took the following action:

The Board voted unanimously to impose a sewer construction/connection moratorium. The moratorium will take effect immediately. Any residential development not previously approved that consists of more than a two family residential dwelling on a previously approved building lot will be prohibited. Any and all future sewer ties to include commercial, industrial and residential will need the approval of the Board of Sewer Commissioners.

Very truly yours,

Board Of Sewer Commissioners
Walter Simmons
William E. Stewart
Gerald Esposito III
